**CORRECTION OF PRIORITY INFORMATION SHOWN IN PAIR**

Dear Commissioner:

The Assignee notes that a review of the continuity information for the present application shown in PAIR does not reflect the claim of priority under 35 USC 120 as a continuation in part of:

"ONLINE BIDDING METHODS AND SYSTEMS FOR AGGREGATE ORDERS", filed August 14, 2000, having Serial No. 09/638,815 and attorney docket code MNE00576;

"METHODS AND SYSTEMS FOR FACILITATING FULFILLMENT OF AN AGGREGATE ORDER AT MULTIPLE RETAIL STORES", filed August 14, 2000, having Serial No. 09/638,470 and attorney docket code MNE00577; and

"COMPUTER NETWORK NAVIGATION USING OBJECTS ABSENT OF OPTICAL CODES", filed August 18, 2000, having Serial No. 09/641,207 and attorney docket code MNE00580.

The specification was amended to include these priority claims on 8/11/2009 as permitted under M.P.E.P. 201.11; noting that the 10/27/2000 filing date exempts the present application from the time period set forth under 37 C.F.R. 1.78(a).

In addition, in the process of checking the PAIR continuity information for the present application the Assignee discovered a priority claim from an erroneous application, having serial no. 09/819,392 “Gaming device having animation including multiple sprite”. While application no. 09/819,392 claims the benefit of application 09/689,310, there is an error in the PAIR system which shows a priority claim to the present application 09/698,310.

While the specification of the issued patent 7,890,386 reflects the correct priority claims, in order to provide further notice to the public of the correct priority claims, the Assignee respectfully requests that the priority information in PAIR be revised to:

- (a) add the missing priority claims to 09/638,815, 09/638,470 and 09/641,207; and
- (b) remove the erroneous priority claim from 09/819,392.

The Patent Office is invited to contact the undersigned by telephone or facsimile in the event that questions arise or if further information is required.

**RESPECTFULLY SUBMITTED,**
